

REMARKS

Initially, Applicant would like to express appreciation to the Examiner for the detailed Official Action provided, for the acknowledgment of Applicant's Claim for Priority and receipt of the certified copy of the priority document, and for the acknowledgment of Applicant's Information Disclosure Statement by return of the Form PTO-1449.

Applicant acknowledges with appreciation the Examiner's indication of allowable subject matter in claims 1-3.

Upon entry of the above amendment, the specification and claims 1-3 will have been amended. Accordingly, claims 1-3 are currently pending. Applicant respectfully requests reconsideration of the outstanding rejection and allowance of claims 1-3 in the present application. Such action is respectfully requested and is now believed to be appropriate and proper.

The Examiner has objected to the drawings as failing to show every feature of the invention specified in the claims. Specifically, the Examiner states that the small items and the rotary device as claimed in claim 1 must be shown or the feature canceled from the claims. In response, Applicant has amended claim 1 to cancel recitation of the small items and the rotary device from the claim. Accordingly, in view of the above noted amendments and remarks, it is believed that the objection to the drawings has been overcome, and Applicant respectfully requests reconsideration and withdrawal of the outstanding objection.

The Examiner has objected to the specification for minor informalities. In response thereto, Applicant has amended the specification to replace "does not operate" with "is not applied" to eliminate awkward or confusing language. This amendment is fully supported by the specification, including the claims and drawings, and no prohibited new matter has been

added. Accordingly, in view of the above noted amendments and remarks, it is believed that the objection to the specification has been overcome, and Applicant respectfully requests reconsideration and withdrawal of the outstanding objection.

The Examiner has objected to claim 3 for minor informalities. In response thereto, Applicant has amended the specification as suggested by the Examiner. Accordingly, in view of the above noted amendments and remarks, it is believed that the objection to claim 3 has been overcome, and Applicant respectfully requests reconsideration and withdrawal of the outstanding objection.

The Examiner has rejected claims 1-3 under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In response thereto, Applicant has amended claims 1-3, as suggested by the Examiner. Accordingly, in view of the above noted amendments and remarks, it is believed that the claims fully comply with 35 U.S.C. § 112, second paragraph, and that the rejections of claims 1-3 under 35 U.S.C. § 112, second paragraph have been overcome. Accordingly, Applicant respectfully requests reconsideration and withdrawal of the rejection of claims 1-3 under 35 U.S.C. § 112, second paragraph.

Accordingly, Applicant respectfully requests reconsideration and withdrawal of the rejections, and an early indication of the allowance of claims 1-3.

SUMMARY AND CONCLUSION

In view of the foregoing, it is submitted that the present amendment is proper.

Accordingly, consideration of the present amendment, reconsideration of the outstanding Official Action, and allowance of the present amendment and all of the claims therein are respectfully requested and now believed to be appropriate.

Applicant has made a sincere effort to place the present application in condition for allowance and believes that he has now done so.

Any amendments to the claims which have been made in this amendment, which do not narrow the scope of the claims, and which have not been specifically noted to overcome a rejection based upon the prior art, should be considered cosmetic in nature, and to have been made for a purpose unrelated to patentability, and no estoppel should be deemed to attach thereto.

Should the Examiner have any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,
Young-Seok KIM
